## WebTalk

# "CONTRIBUTING FACTORS TO CLIMATE CHANGE AND ECOSYSTEM FUNCTIONING"

13 April 2026

13:00 - 14:00 (CET)

Join our discussion which approaches evaluation of statistical relationships between climate change indicators and water quality parameters, the impact of climate change on the status of surface and groundwater bodies in Lithuania,; the relationship between the impact of military action on climate change as a result of ecosystem destruction, water pollution, and biodiversity loss.

We invite specialists, scientists, students and all those who are interested in issues of sustainable development, climate change and climate justice.

This webtalk is part of the ERASMUS+ Climate Justice Living Lab project, funded by the European Union

Participation is **free of charge**, but registration is required.
