WebTalk

"THE IMPACT OF CLIMATE PROBLEMS ON SOCIETY"

12 March 2026
12:00 - 13:00 (CET)

Join our discussion which approaches climate justice as a broad socio-economic issue that goes beyond the environment, linking it to economic transformation, local development, territorial equality, and new models for sectors such as tourism. It also examines how climate risks and financial vulnerability deepen global inequalities and limit the ability of states and communities to respond to sustainable development challenges.

We invite specialists, scientists, students and all those who are interested in issues of sustainable development and climate justice.

This webtalk is part of the ERASMUS+ Climate Justice Living Lab project, funded by the European Union

Participation is **free of charge**, but registration is required.
